OVERVIEW

The National Surveying Congress continues to be the most important conference for the surveying profession in Australia bringing together delegates from leading surveying firms across the country.

Your partnership of the surveying 2020 increases your businesses authority in the industry while simultaneously boosting your company's credibility with end users.

By partnering with us for the event, your company will gain direct access to the business leaders, the owners, and the key decision makers from throughout the surveying profession.

Whether looking to build your brand, increase your exposure to new clients or to reconnect with current ones, Partnering with the Surveying Congress, with its broad attendance by the national surveying community, remains a strong opportunity for you or business and a great return on investment.

Please take advantage of one of our several partnership packages that best suits your company's needs.
